## **Minuteman and Sextons Clean Up**

Minuteman Press Bristol and Sextons Car Audio and Security have teamed up to do their bit to make Bedminster a nicer place. In a joint initiative they have removed graffiti in the immediate area, painted their shop frontages, added lighting features and upgraded their displays.

The objective has been to contribute to and gain momentum in the clean-up of Bedminster. To enhance and improve the environment, to attract more positive publicity for the area and to make people feel good.

“We wanted to give something back to the community and by doing our bit to tidy up the area we have made a start that we hope others will follow” said Peter Wise, Managing Director at Minuteman Press.

“It is great that we as a business can contribute to the community, the response from visitors and the number of well-wishers were overwhelming. Our staff have been thrilled by people’s reaction which has exceeded our most optimistic expectations” Peter Wise added.

“It just shows that local businesses can work together, with common goals, to the benefit of the people of Bristol” said Andy Clift, owner of Sextons.

“I am delighted with the results of our efforts, it has given the area a lift and brought a smile to the faces of passers by. We will continue to be vigilant” Andy commented in conclusion.
